

FK-7501

Basic information

Model

FK-7501

Full length

16720mm

Total height

4000mm

Total width

2550mm

Self weight

54000kg

Technical Specification

Full length:	16720mm
Total width:	2550mm
Total height:	4000mm
Self weight:	54000kg
Boom vertical height:	74.5m
Boom horizontal length:	68.9m
Boom vertical depth:	56.1m
Minimum expansion height:	16.8m
Front leg deployment width:	12745mm
Rear leg deployment width:	15800mm
Concrete displacement :	180m ³ /h
Pressure:	12/8.2Mpa
Theoretical pumping times):	26/min
Delivery cylinder inner diameter:	260mm
Delivery cylinder stroke:	2200mm
System oil pressure:	32Mpa
Tank volume:	600L
Water tank volume :	1000L
Conveying pipe diameter:	125mm
End hose length:	3m
Displacement:	12.5/12.419L
