

FK-150E

FUKE

Boutique Manufacturing,

Conquer The World with Quality

> Product Description

- Extra-long boom, wider operating range
- Two-stage large-span outriggers have stronger overall machine stability
- The fuel tank is integrated on the base for easier modification
- High safety factor design, higher reliability
- Standard warning horn, work light
- Standard high pressure filter
- Standard configuration winch over-winding alarm
- Standard plunger pump, longer life, higher efficiency, higher reliability
- Optional hydraulic or manual outrigger
- Optional innovative low seat, which is more in line with humanized operation and enhances comfort
- Optional winch over-discharge protection

> Lifting Performance Graph

NOTE
The above lifting height and boom angles are based on a straight (unladen) boom. Allowance should be made for boom deflection under laden conditions. Lifting capacities must not exceed 85% of tipping load.

> Lifting performance parameter table

> Technical Parameters

Basic Data	FUKE FK-150E
Rated lifting moment	40 mt
Rated lifting capacity	15000 kg (2.5 m)
Max. outreach	18.6 m
Max. lines of the hook	6
Slewing angle	Continuous
Boom raising angle	0 ~ 75 °
Max lifting height (the measurement from the ground after the outriggers fully extended)	21.5 m
Length of the boom system (retracted)	6.23 m
Length of the boom system (fully extended)	19.0 m
Boom sections	5
Outrigger span (fully extended)	7.25 m
Recommended flow rate	80 ~ 110 L/MIN
Operating pressure	32 Mpa
Recommended oil tank capacity	300 L
Crane moment(dynamic)	913.8 kNm 93.1mt
Torsional moment(dynamic)	52.5 kNm 5.4mt
Crane weight	6000 kg

*We follows the principle of continuous improvement Product performance parameters will be partially changed due to technical improvements without prior notice.

Amplitude	Arm length (fully extended outriggers, hanging from the rear side)				
	5.3	8.5	11.7	14.9	18.1
1.8	16000				
2.0	14920				
2.5	12850	11260
